SUMMARY

An ambitious and dedicated web developer with expertise in front-end with React.js, seeking a dynamic and challenging professional setting to harness my skills in real-world projects, while striving towards both organizational and personal goals

EXPERIENCE

FRONTEND DEVELOPER

Texagon

📅 09/2023 - Present 📍 Lahore, Pakistan

A software house serving clients with top-tier web, mobile, and desktop solutions worldwide

- Amplified user engagement and experience for a diverse global client base by spearheading the development of user interfaces with 5 out of 5 rating
- Employed React.js, Next.js, and Chakra UI to drive substantial advancements
- Collaborated extensively with senior team members and backend developers to integrate APIs, resulting in enhanced user interactions and system performance

.NET INTERN

Absolute Solutions

📅 07/2023 - 08/2023 📍 Lahore, Pakistan

Absolute Solutions is the leading IT products and services provider in Gulf Cooperation Council

- Implemented an e-signature feature for the Case Management System application, utilizing .NET Core MVC and iTextSharp, enabling attorneys to get their documents signed online
- Updated the Software Requirements Specification document for the Case Management System, ensuring accurate and up-to-date documentation for future development and reference
